

TIMER INSTRUCTIONS

STEADY STREAM A/C DRAIN PUMP MODEL T200

Timer is pre-programmed to run weekly on Saturdays at 1:00 PM EST (13:00) for 2 minutes. Always keep timer on AUTO mode (NO light bulb symbol) to ensure proper functionality of the programs.

WARNING

Do not use AUTO mode
(WITH LIGHT BULB SYMBOL)
as this will automatically
turn on the pump.

1

BLANK SCREEN

If the timer display screen is blank the pump **MAY TURN ON** once the unit has power. Press and release the C 'reset' button, using a small pointed object (example: pen or paper clip).

Follow the instructions below to set the timer.

2

CONFIRM CORRECT DAY/TIME

Confirm timer has power and is displaying the correct day/time. AUTO mode (NO light bulb symbol) should be visible on the screen prior to connecting STEADY STREAM to power source.

If the screen shows OFF, ON or AUTO (WITH light bulb symbol) press MANUAL button until AUTO (NO light bulb symbol) is selected.

3

SET DAY/TIME

Press and hold clock button while pressing D + (days), H + (hours) or M + (minutes); release clock button when completed.

Press clock button or wait 30 seconds to return to main menu.

Time is displayed in 24 hour format.

CHANGE DAY/TIME

Press P button to display 1ON, then set day/time.

Next press P button to display 1OFF, repeat previous step to set off day/time.

ADD ON/OFF TIMES

Press P button three times to display 2ON, then set day/time.

Press P button to display 2OFF, repeat step to set day, time and minutes.

Repeat steps for additional times.

REMOVE ON/OFF TIMES

Press P button until ON time to be removed is displayed. Press C/R button to remove ON time.

Next press P button to display OFF time then press C/R button to remove it.

Repeat steps to remove additional times.
